

Specification HL-150 8DD MWD Battery

Lithium Thionyl Chloride Battery

http://www.akkutronics.com

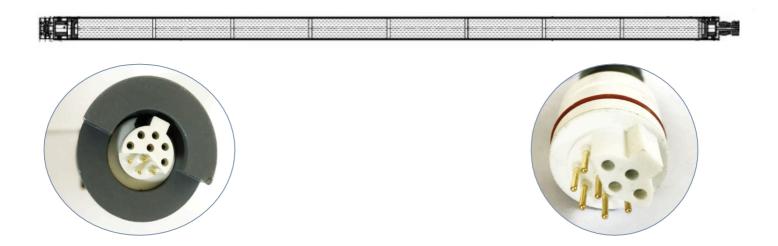

28.8V Primary Li-SOCI2 Battery HL-150 8DD Size High Temperature Type

Nominal voltage: 28.8V
Nominal capacity: 29Ah
Maximum continuous current: 500mA
Maximum pulse current: 1500mA
Operating temperature: -40~+150°C

Outline dimension: Length 1187±2.0mm, Diameter 37.5mm±1.0mm

Battery Ends Top: 6 Pin/4 Socket Kintec

Bottom: 4 Pin/6 Socket Kintec

*Optional Smart IC: Battery monitor that measures and records voltage, current, capacity and temperature.

Please consult with Akku Tronics for further information.
